

SEED COAT™

Works On ALL Seed!

**DeltAg Seed Coat Test Plot: Photo March 25, 2006:
Planted September, 2005 in drought conditions.
First Substantial rains received after December 15th
in Cold Weather.**

Dry Formula

Simple to Use

What is *DeltAg Seed Coat* ?

This biostimulant product is a dry seed treatment, designed to enhance **SEED** performance.

Seed Coat contains a proprietary chemistry from *DeltAg* that has been proven for many years to enhance emergence, grow off, and survival.

Seed Coat is designed to help establish a healthier stand in your food plot or garden, regardless of weather conditions.

Seed Coat contains a proprietary organic complexer, and specific amino acid, vitamin and enzyme chemistry to aid in seedling vigor and grow off.
